

When all seems
lost

Chaplains bring

Hope

Jericho Road places chaplains in settings where many of us can't access - behind prison walls, in hospital wards and alongside emergency service personnel. They see people in their critical moments, when facing imprisonment, medical emergencies, or the aftermath of a tragedy.

The impact of these chaplains who can share the hope of the Gospel at times like these is seen in the countless stories of transformed lives.

We need your partnership to continue this ministry and bring hope to those in dark places.

Help support the cost of this vital ministry and be part of **transforming the lives** of prisoners, patients, carers and emergency workers.
